

What is REX?

REX is a program operated by Undergraduate Research Opportunities (URO) that is designed to give undergraduates their first taste of research. As a mentee in the program, you will:

- Be matched with a graduate student or current researcher
- Prepare a research proposal with a small group
- Make valuable connections
- Attend free workshops which are designed to help you at key checkpoints during the REX program
- Present a poster or oral presentation the Multidisciplinary Undergraduate Research Conference (MURC)

When is REX?

Exact dates are subject to change and a more detailed timeline can be found at <http://www.uroubc.ca/rex/>

Upcoming deadlines: **September 6** Online sign-up for REX Mentees opens
September 20 Mentees are able to choose desired mentors
September 30 Final deadline to register for REX

URO: Who are we?

A REX student can be any undergraduate student interested in scientific, arts, kinesiology, or business research. URO is a student-run club at UBC that facilitates undergraduate entry into research through the REX program, various events, office hours, and collaboration with other organizations.
